

Families Link List

SOFT UK is a UK wide charity that provides information and support to families affected by Trisomy 13, Trisomy 18 and related conditions. We provide support at all stages of a family's journey; expecting a baby, caring for a child, coping with bereavement and beyond.

Families have told us for decades that the one thing that makes the real difference to them is the contact they have with other families. Being able to talk to someone who truly understands what they are going through, that they can discuss the difficult issues with and who offer them some hope for the future.

This is particularly the case for families caring for a child or young person affected by Trisomy. The quality learning comes from other parents who have faced your challenges already and are fully armed with tips and suggestions on everything from feeding to surgery.

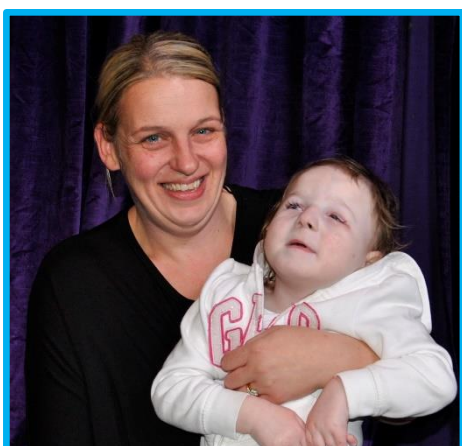

In order to better facilitate this family contact, we are hoping to create a 'Link List' of families caring for a child, who are happy to be contacted by new families to talk about their experiences of raising a child with a Trisomy condition.

What we're looking for

SOFT UK families to join our register, giving brief details about the child/young person they are caring for and the contact details they are happy to give out.

This List will be available to our Support Volunteers who may contact you to put new families in touch.

SOFT UK may also contact you directly when we are developing services for children with Trisomy, to gain your views.
